Cybersecurity & Infrastructure: An Upskilling Program for City IT Workers

Cyberattacks on critical infrastructure are what the FBI now calls the “defining threat of our generation.” Now, NLC, in partnership with 418 Intelligence and OAMtech, has developed a unique training program that will enable cities to upskill current employees and transition them into certified cyber analysts. Register for this informational webinar to be among the first to learn the details of this new offering through NLC University. [Read more »](#)
